Physics Group Heads Named At El Camino

Three El Camino college physics instructors will head the activities of the Southern California section of the American Association of Physics teachers for the coming two years. Dr. William H. Harless, Director of Instruction at El Camino, announced this week.

Serving as president of the 150-member organization will be Julius Sumner Miller, Thomas N. Wilson will hold the combined office of vice president and secretary, while Dr. Fernand Deloume will serve in the capacity of chairman of the high school test committee.

Membership in the physics group is composed of individual physicists throughout the Southland, college instructors, and high school teachers of physics. "The organization is established," Miller advised, "to promote better teaching to improve cultural aspects of physics."

Basis for Awards

Describing the office held by Dr. Deloume, Miller noted that the high school test committee is responsible for preparing the annual spring test administered to high school students. Upon the basis of results of the test, scholarships are awarded to the branches of the University of California, the California Institute of Technology, and such colleges as Whittier, Pomona, and Occidental. Such scholarships are substantial in value, he added, in stressing the importance of Dr. Deloume's committee work.

Winners of the scholarships awarded have traditionally made the highest marks in the college attended, the association president elaborated, adding that the test is largely a device to indicate the potentially eminent physicists in the Southern California area.

Torrance Man Closes Tour In Air Force

Staff Sergeant William E. Malloy, son of Mrs. Eva Malloy, of 1329 Englewood Ave., Torrance, Calif., received his discharge from the United States Air Force on Thursday, March 31, at Pope Air Force Base, Fort Bragg, N.C.

Sergeant Malloy attended Torrance High School and upon his graduation in June of 1948, took two years apprenticeship as an embalmer at the Stone and Myers Mortuary in Torrance.

In April of 1951, he enlisted in the Air Force and attended a Laboratory Technicians School at Barksdale Air Force Base in Louisiana. At Pope Air Force Base, Sergeant Malloy has been the Non Commissioned Officer in Charge of the Laboratory in the 4450th USAF Dispensary.

Upon receiving his discharge, he plans to attend the California College of Mortuary Science in Los Angeles.

CASTING MACHINE SHOWN . . . Harwood Clark, president of the Torrance Brass Foundry, Inc. (left) and James D. Jones, comptroller (center), demonstrate the operation of a centrifugal castings machine to Arthur O. Olsea, of the local branch of the California Bank. The machine was featured in the local firm's booth at the Western Metal Exposition held recently at the Pan Pacific Auditorium.

GIs Warned To Check on Home Sales

Veterans selling their GI homes too frequently appeal for counsel too late and end up legally bound to clear substantial debts incurred by another.

This statement came last week from Mrs. Helen K. Dill, executive director of the Community Chest-sponsored Torrance Area Veterans Service Center, 1622 Gramercy Ave., where veterans and veterans' dependents and survivors may obtain free advice regarding their rights and benefits.

"The VSC too frequently receives appeals for counsel or help from veterans who have sold their GI homes only to find that purchasers are defaulting on their payments," Mrs. Dill said.

The counselor said that under Veterans Administration rulings selling does not require approval but the veteran is legally bound to make good any outstanding liabilities.

"His only protection is to pay off his liability in full or insist that the new purchaser seek out his own financing in order that his obligation to the VA and the lending agency be completely satisfied," she said.

Man Returned From Nevada For Forgery

A 32-year old Glendale man, Robert L. Stoker, was arraigned in South Bay Municipal Court Monday, and will have a preliminary hearing Friday on two counts of forgery and one count of burglary.

The charges were brought in connection with the theft of checks from the Torrance Sand and Gravel Co. on March 18. Five of the checks with a total value of \$687 were later cashed in Torrance, Los Angeles, and Long Beach.

Stoker was returned from Reno, Nev., after authorities there arrested him for attempting to pass one of the checks at Harold's Club there.

Police also are seeking two accomplices, who were reportedly implicated in the burglary and forgery.

IN COLORADO . . . Arriving in Fort Carson, Colo., at the foot of Pike's Peak, to begin basic training earlier this month was Pvt. Richard J. Ortega, son of Mr. and Mrs. Augustin Ortega, of 230 Arlington Ave. Prior to entering the service in January, Ortega was employed by the city.

Local Demos Tell Plans For Dance

Plans for a box supper and square dance were discussed at the last regular meeting of the Torrance Democrats Inc. held at the home of the Jess Deans, of 1443 Post Ave.

The affair is to be held April 16, at the Oil Workers Hall, 2100 W. Willow, in Long Beach.

Starting time slated for the box supper is 7:30 p.m., after which the square dance will take place. Calling the tunes will be a professional square dance instructor, Charles LaForce. The music is to be provided by Ray Show's Rangers.

A report on the California Democratic Convention, held in Fresno, March 19 and 20 also was given. Attending were Thirvin Fleetwood, president of the club and Mrs. Fleetwood, the Dick Eakins, the Jess Deans, Bill Wilson, and George Pickett. Mrs. Fleetwood and Mrs. Eakin were alternates.

BACK FROM FAR EAST . . . Scheduled to return from a cruise in Far Eastern waters this week is Seaman George W. Souder Jr., son of Mr. and Mrs. George W. Souder Sr., of 1455 W. 232nd St. He is slated to land in San Diego aboard the destroyer Orleck.

GRADUATED . . . Recent graduate at the Ellington Air Force Base, Tex., was Aviation Cadet Frederick S. Oldmoto, son of Mr. and Mrs. Fred Okimoto, of 3521 Emerald St. He received his silver observer's wings and Second Lieutenant's commission in the Air Force.
